

WELDERS – 2nd SHIFT

We have immediate opportunities available in Sandusky, OH for Welders on our *2nd shift* team (*3:15-11:45 pm*). This position performs fit-up and welding of products from mechanical drawings using GMAW (mig) processes as required. This position will also require the design and build of jigs and fixtures as needed.

KEY DUTIES:

- Perform fit-up of product to mechanical drawings.
- Proficient with GMAW (Mig) welding including the troubleshooting process.
- Proficient with the weld/fabrication of stainless steel a plus
- Perform quality checks as established.
- Interact with all levels of management including engineering with respect to problem-solving.
- Perform other plant operations-related duties as assigned.

The ideal candidate will have a High School Diploma/GED with post-high school education / training / certification in welding a plus. A minimum of three years weld experience desired, building large equipment desirable; oven & furnace construction a plus. A high level of understanding mechanical drawings / blueprints is essential. The successful candidate will have strong communication, problem-solving/troubleshooting, and mathematic skills; as well as a high level of attention to detail, quality, and safety.
