

## **SHIPPER / MATERIAL HANDLER - 1st Shift**

We have an immediate opportunity available in Sandusky, OH for a Material Shipper on our *1st shift* team (*9:00 a.m. – 5:30 p.m.*). This position will perform a variety of duties including: building of pallets/skids for finished product; load/unload/ transport materials to off-site plant locations, material suppliers, and limited customer locations; assists in the pulling and issuing of stock and purchased parts required for the various manufacturing departments; as well as being involved in shipping out materials from the location primarily through the packing of various size parts for pick-up by FedEx and the preparation of all appropriate shipping documentation.

### **KEY DUTIES:**

- Builds product skids (pallets) for finished product
- Pull / put away parts required for manufacturing operation job orders.
- Loads off-site plant orders onto inter-plant truck, including proper load securement
- Unloads off-site plant orders from inter-plant truck in designated drop locations
- Pack products of various sizes/weights to ensure protected delivery to various locations.
- Perform other duties as assigned.

The ideal candidate will have a High School Diploma/GED with some post-high school education / training / certification in shipping and material handling activities in a manufacturing operation. A minimum of one year of work experience in manufacturing preferred. Able to operate a forklift, pallet jack, as well as able to spend significant time standing, walking and lift items up to 80 lbs. from floor to shoulder height. Strong communication and mathematic skills are required. The successful candidate will have a strong attention to detail, able to interact effectively with others, and a strong level of mathematical skills.
